Specifications:

Glass container | Polypropylene parts | Stainless steel

Compliant to the requirements set out in Art. 3 of Commission Regulation (EU) No. 1935/2004 of 27. October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, the material(s) used in these products are chosen for their technical quality as well as purity suitable for contact with foodstuffs. Current amended version with 2019/1381 (20 June 2019) is included.

The products listed above are manufactured pursuant to the requirements outlined in European legislation regarding labelling and traceability.

EU Commission:

In accordance with EU Commission Regulation no. 1935/2004 this product is intended for food contact. Therefore it can be marked with the "glass & fork" symbol either on the packaging or through labelling.

Products are manufactured according to EU Commission Regulation no. 2023/2006 on good manufacturing practices for materials and articles intended to come into contact with food (GMP).

Overall migration (OM). The products meet the requirements regarding overall migration under 'worst foreseeable use' testing to 10 % ethanol (food simulant A) and 3 % acetic acid (B2) for 2h at 100 °C.

Specific migration of metals. In compliance with the requirements of Directive (EU) No. 84/500, amended by 2005/31/EC, the product samples were not found to release any excess of lead, cadmium or cobalt when tested according to LFGB DIN 51032:2017 and ALS Opinion nr. 2017/15- Leachable Cobalt.

Specific migration of metals. The products meet the requirements of Annex II, (1) of the (EU) No. 10/2011 regarding Heavy Metal Migration when subjected to a 3% acetic acid testing for 2h at 100 °C.

Migration of Primary Aromatic Amines. The products meet the requirements of Annex II, (2) of the (EU) No. 10/2011 to not release any PAA in detectable quantities when subjected to a 3% acetic acid testing for 2h at 100 °C.

Packaging and Packaging Waste Regulation. The packaging materials used to protect the above articles before use (id: 7428_p1-1, Carton + PE film; id: 7428_p1-2, Carton + PE film + EPS; id: 7428_p1-3, Carton + printed carton) comply with the requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR) concerning them at the time of this declaration. They are declared under Exxent's extended producer responsibility (EPR) and should be sorted and recycled with respect to local regulations.

Max. temp (foodsafe): 100 °C

Max. temp (warming): The thermoses above are designed to contain hot and cold beverages. Parts are not meant to be warmed on their own.

Suitable for: Holding and serving hot and cold beverages.

Date of issue: SE-Gothenburg the 9th of September, 2026.

Yours sincerely,

Quality & Sustainability Department
Exxent AB.
